

# Social Studies: It's More Than Memorizing Dates

In this workshop, participants will gain knowledge of the goals of the Illinois Social Science Standards and key social science practices as well as ideas and resources for implementation. Time will be spent discussing the overall vision and structure of the standards, exploring inquiry in the classroom, as well as examining resources to support implementation. Additionally, time will be set aside to explore shifts within current curriculum that may be needed so participants should bring or have an idea of their current curricular materials or units for the upcoming school year. Participants will leave with a set of their grade-level Social Science Standards, the Social Science Standards with Literacy Connection document for their grade level, as well as other resources to support implementation.

Thursday, September 7, 2017  
Adams County Health Department  
330 Vermont Street  
Quincy, IL
